QTOPIC-380F

The QTopic-380F single-sided laminator is a specialty finishing system that meet the needs of on-demand print shops as an excellent complement for most digital print engines. This unit comes standard with semi-automatic feeder, or an options is available with a deep pile fully-automatic feeding head. The QTopic-380F has an adjustable de-curling system that creates consistent flat output. The QTopic-380F is capable of both laminating as well as SleekerDigital™ finishing technology which allows for variable data foil stamping, spot varnishing and holographic effects on digital outputs. The QTopic-380F is the professional and economical addition for in-house on-demand lamination and specialty finishing.

Deep Pile Fully-Automatic Feeding Head Option

Touch Screen and Speed Control

SleekerDigital™ Technology bonds metallic foils, spot gloss and holographic effects to digital print.
