

Overlamine Thermal Roll Film

Talent™ ScuffMaster™ overlamine film, is the new standard in premium scuff-protection film. Different from every other type of anti-scuff film on the market, **Talent™ ScuffMaster™** utilizes new technology that changes the molecular structure of the film surface, through a chemical reaction, to greatly increase the hardness and durability.

Talent™ ScuffMaster™ is built on a very stable BOPP film base, and has no “coating” that can scratch off or burnish, like other anti-scuff films. Boasting an extreme hardness level, the film is perfect for a huge range of consumer and high use products that need an ultra-smooth, ultra-protective surface. In addition to durability, **Talent™ ScuffMaster™** is very versatile, allowing the bonding of spot UV coating, glues, and foil stamping with ease.

KEY BENEFITS

- Tough Scuff, Scratch and Burnish Resistant Finish
