

ROLL-@-COIL

ELECTRIC COIL INSERTER

ROLL-@-COIL

The Roll @ Coil electric inserter makes coil inserting incredibly fast and easy, and reduces costs by saving time. This machine features an electric roller inserter, operated by foot pedal control, allowing the operator free use of both hands to hold the document as well as full control of the rotating roller. The Roll @ Coil plastic coil inserter is one of the most economical and robust coil inserters on the market and suits small to mid-sized workloads with its compact size. Designed to work as a stand-alone unit, it is small enough to mount on one of our modular binding punches.

Product Features:

- Recommended coil inserting capacity of up to 7/8" diameter size.
- Full length EPDM high-friction roller (Foot pedal operated)
- Built-in Diameter Scale helps to verify the coil diameter.
- Built-in Diameter Selector matches correct coil diameter size to corresponding thickness of document.
- Built-in Alignment Channel shapes the document's spine to the coil shape, for faster & easier coil insertion.
- Built-in Pitch Identifier verifies that the coil pitch matches that of the punched document.

GVDIRECT™

Finish Well

GVDirect™ diligently works to ensure our performance lineup of laminate films, digital technologies, equipment, and all things finishing work for our customers to gain consumer attention and market share. GVDirect™ diligently endeavors to deliver value in service, product, and equipment that surpass market demands, support productivity, and uphold social and environmental integrity.
